What is ISE

International Systems Company (ISE) is a **LSTK contractor** in Saudi Arabia situated in Jubail. ISE is a solution provider in the field of Control Automation, Instrumentation and Services. ISE provides a wide range of services in Process Control Systems, Advanced Industrial Software, and Process Automation. ISE offers a full turnkey solution for control and instrumentation requirements for the Oil & Gas, Process and discrete manufacturing industries.

Our activities concentrate on medium to large scale projects throughout the region. ISE provides highly accessible client support and maintenance resources at short notice, which removes the costs arising out of client dependency on support from outside the region. We aim to work with the clients in the development of most effective control solution from solution conceptualization through application consulting and generating FEED document for control & instrumentation systems.

Our Mission

At ISE, our mission is to be a complete solution provider by working closely with technology providers and end-users, offering unmatched quality services utilizing our seventeen years of engineering, procurement and construction knowledge through local work force aligning with Saudi vision 2030.

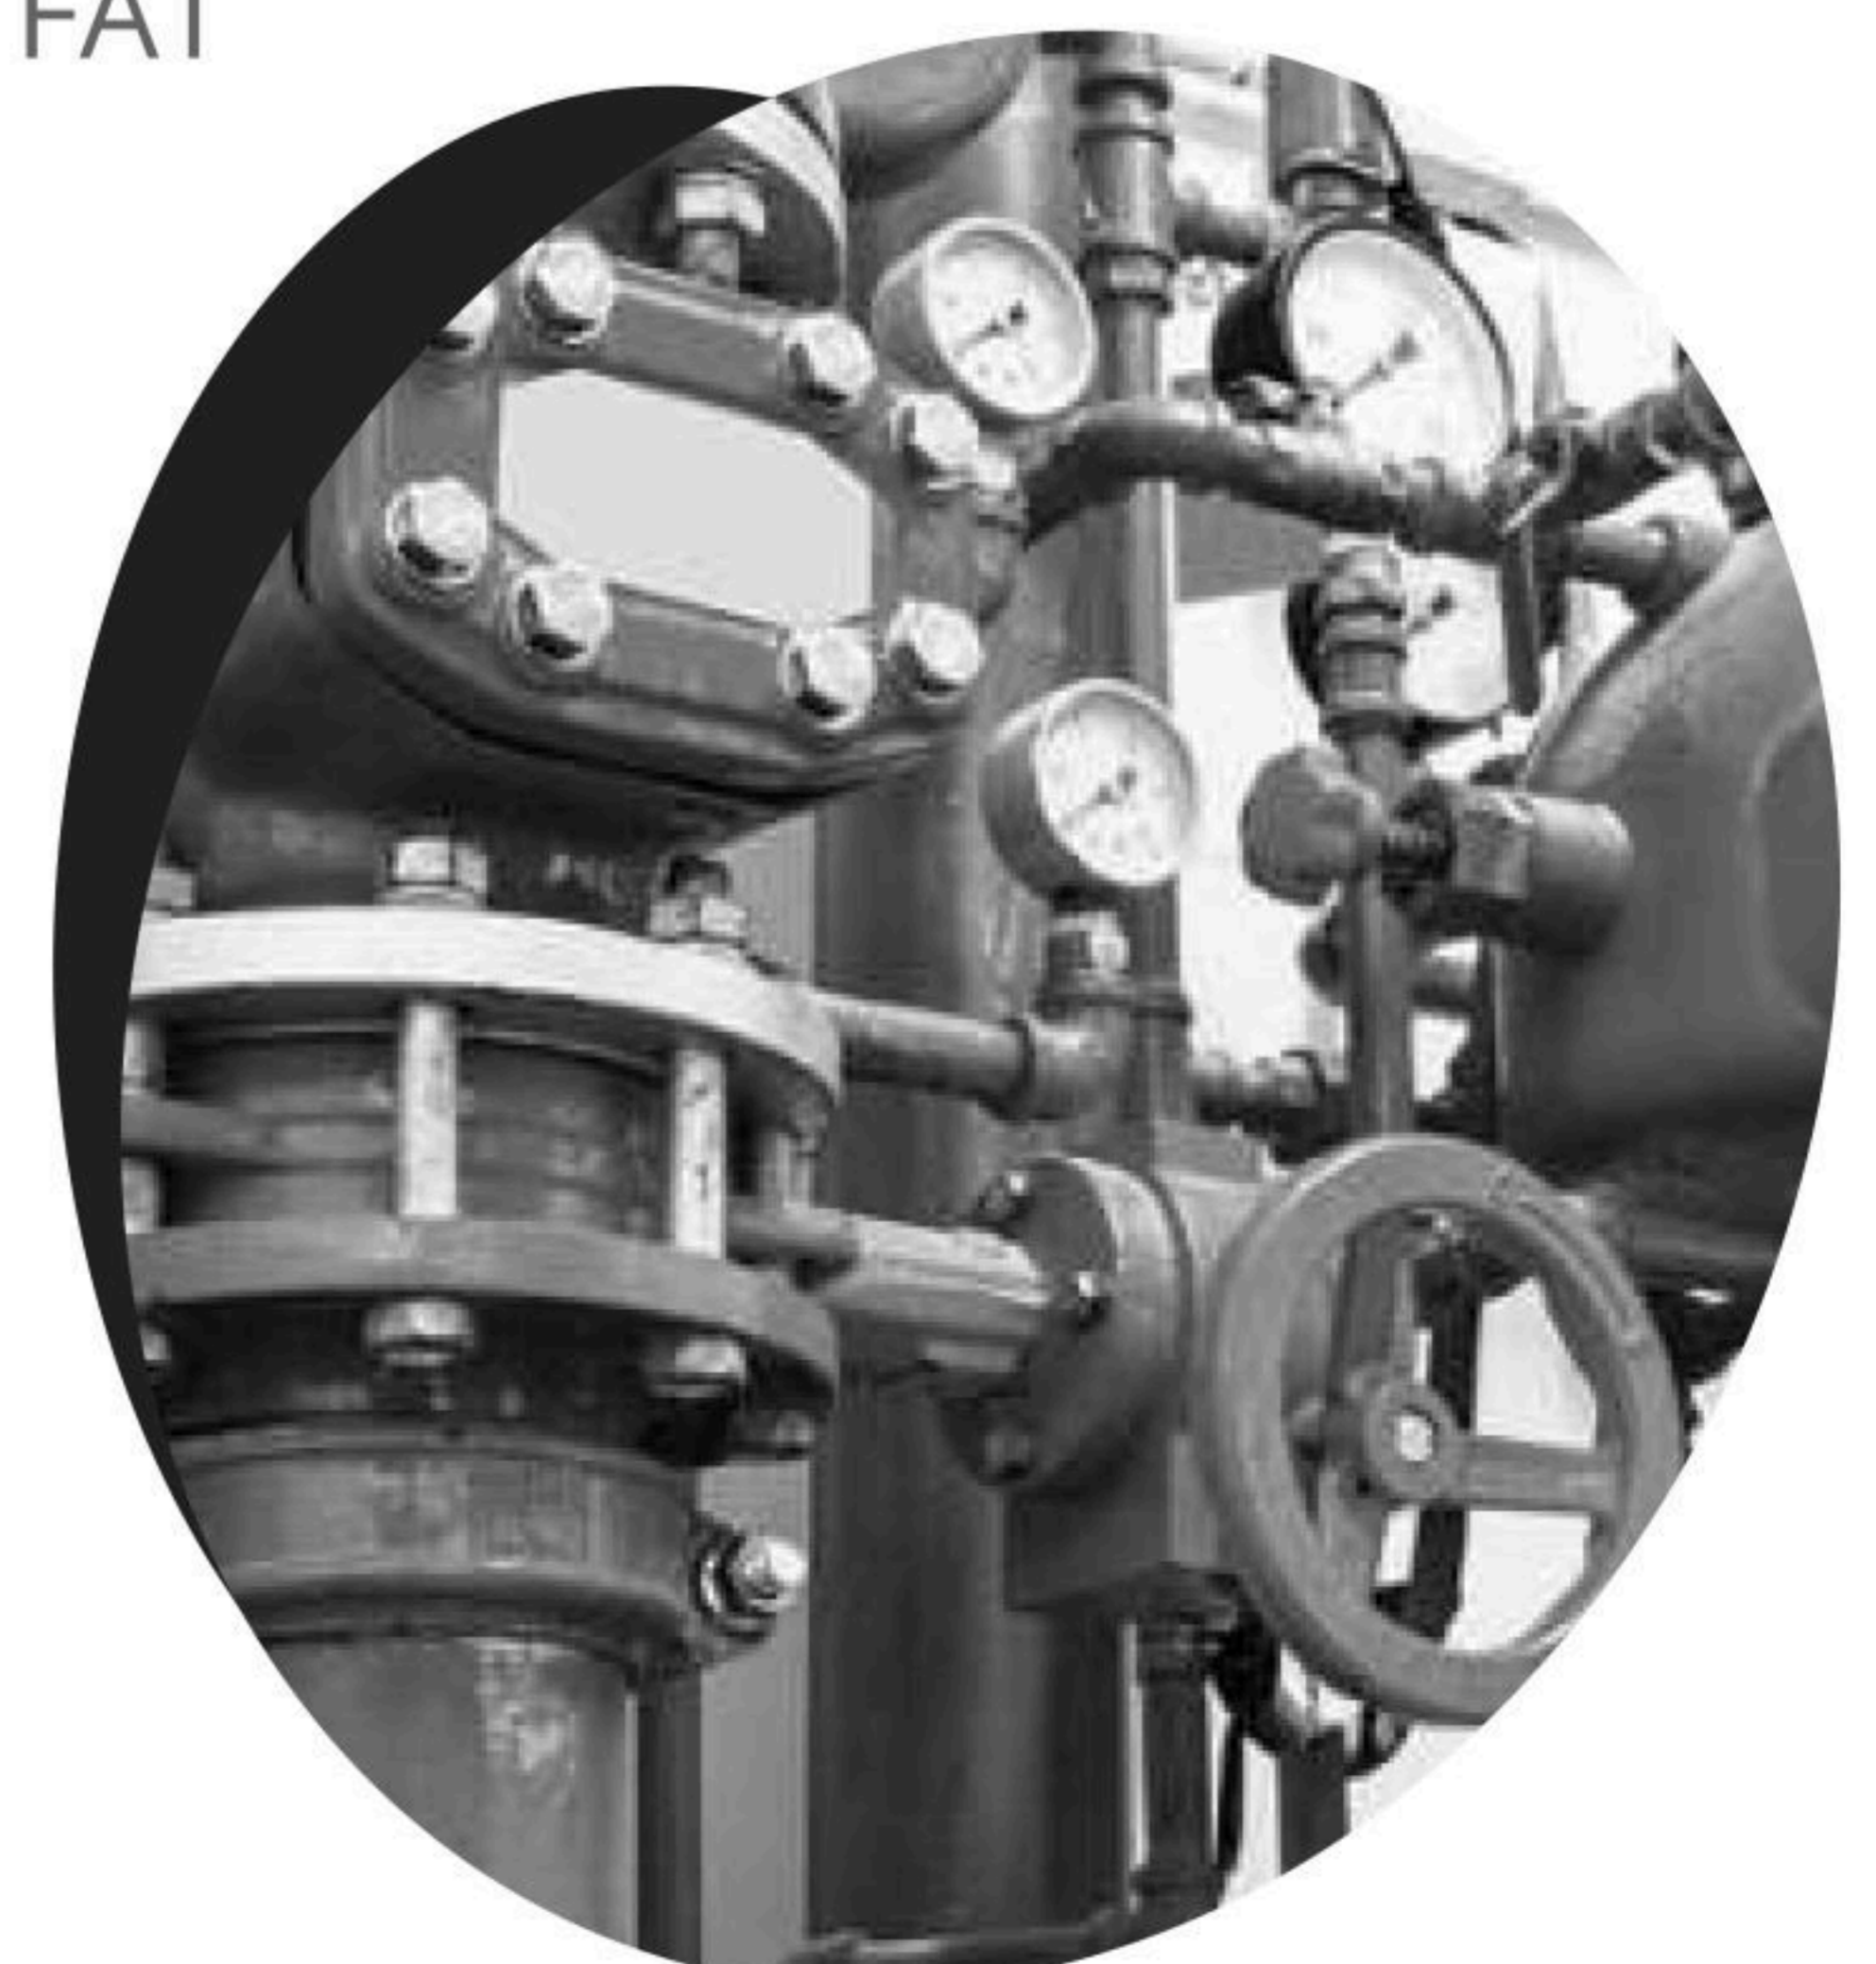

Our Vision

ISE want to be preferred local engineering procurement and construction (EPC) contractor supporting our client's businesses achieving their goals through localized technology.

What We Do

- Engineering procurement and construction (EPC) with complete project management expertise to handle complete brownfield projects
- Site construction activities as a Lump sum turnkey (LSTK) specialized in instrumentation, control system and turbo machinery
- End to end services offerings related to Operational Technology (OT) and critical infrastructure Cybersecurity
- Environmental solution (CEMS, WQM, WWT, fence line monitoring and flare monitoring etc.)
- Control system cabinet integration, marshaling, staging and FAT
- Integrated Fire Protection and Security system Solutions
- Pre-FEED activities to estimate budget and scope
- Emergency shutdown system (ESD)
- Turbo machinery control systems
- Integrated Analyzer solution
- Tank Gauging Systems

Site Construction Services

■ Filed Construction

- Installations of system cabinets and engineering workstations
- Marshalling cabinets' installations and terminations
- Local panel installations and modifications
- Modification of existing operation consoles and installation of LCD screens
- Terminations of system cabinets and mimic panels
- Laying of system cables
- Filed instrument calibrations
- Installation of field instruments (level, pressure, flow and temperature transmitters)
- Installation of wireless instrumentation HART/ISA100.11a (corrosion, level, pressure, flow and temperature transmitters)
- Mechanical completion (cable trays & ladders, conduit laying, multi core cables and signal cables laying, laying of stainless-steel tube, installation of junction boxes)
- FO cables laying , splicing with OTDR test

■ Pre-commissioning, commissioning and startup support services

Cabinet Integration

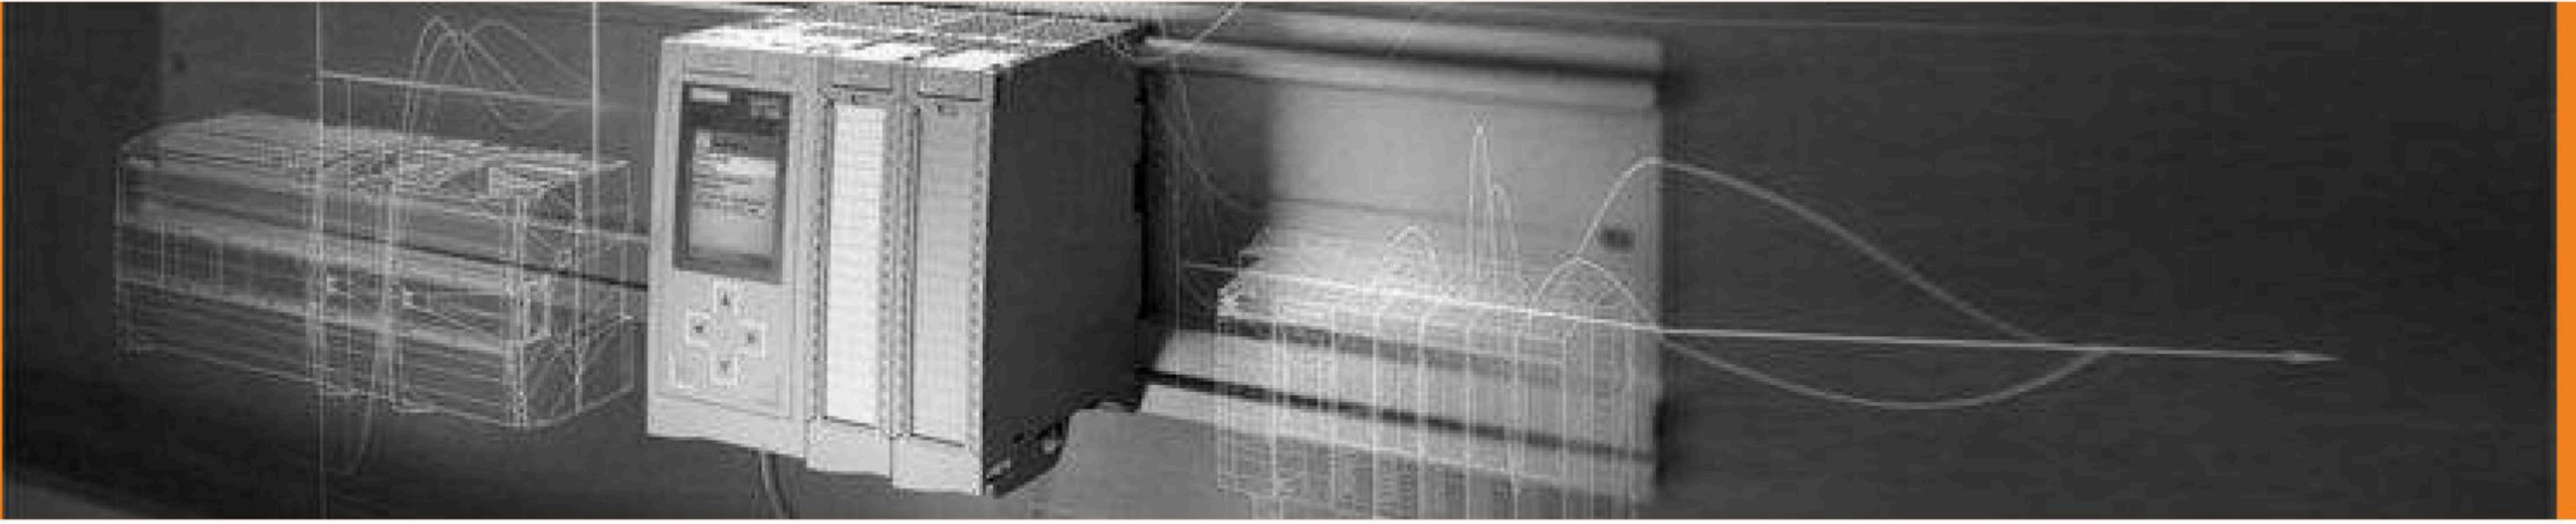

■ Type of Cabinets

- SYSTEM (ESD, DCS, PLC, SCADA/RTU) cabinets.
- Marshalling (ESD & DCS) cabinets.
- Relay Panels.
- Power Distribution Cabinets.
- Network Cabinets.
- VMS Cabinets
- Compressor control cabinets
- Mimic panel installation

■ Staging, FAT, iFAT and Training services at our facility for customers.

ESD and PLC Systems

- ISE provide complete integrated solutions, covering all the process automation and engineering services related to effective monitoring and control of industrial plants.
- Our scope of work covers all activities, from engineering, documentation, supply of automation equipment, installation, testing and commissioning to system handover.
- We propose effective solutions dependent on requirements from the end user and have vast experience with the supply and integration of state of the art ESD and Safety PLC systems.
- By working with a variety of vendors in the ESD and Safety PLC, ISE can provide optimal and cost effective solutions meeting the clients financial targets and completion time.
- ISE automation team is capable to do both green field and / or brown field projects as it has in-house technical capabilities.

Aramco Approved Staging Area

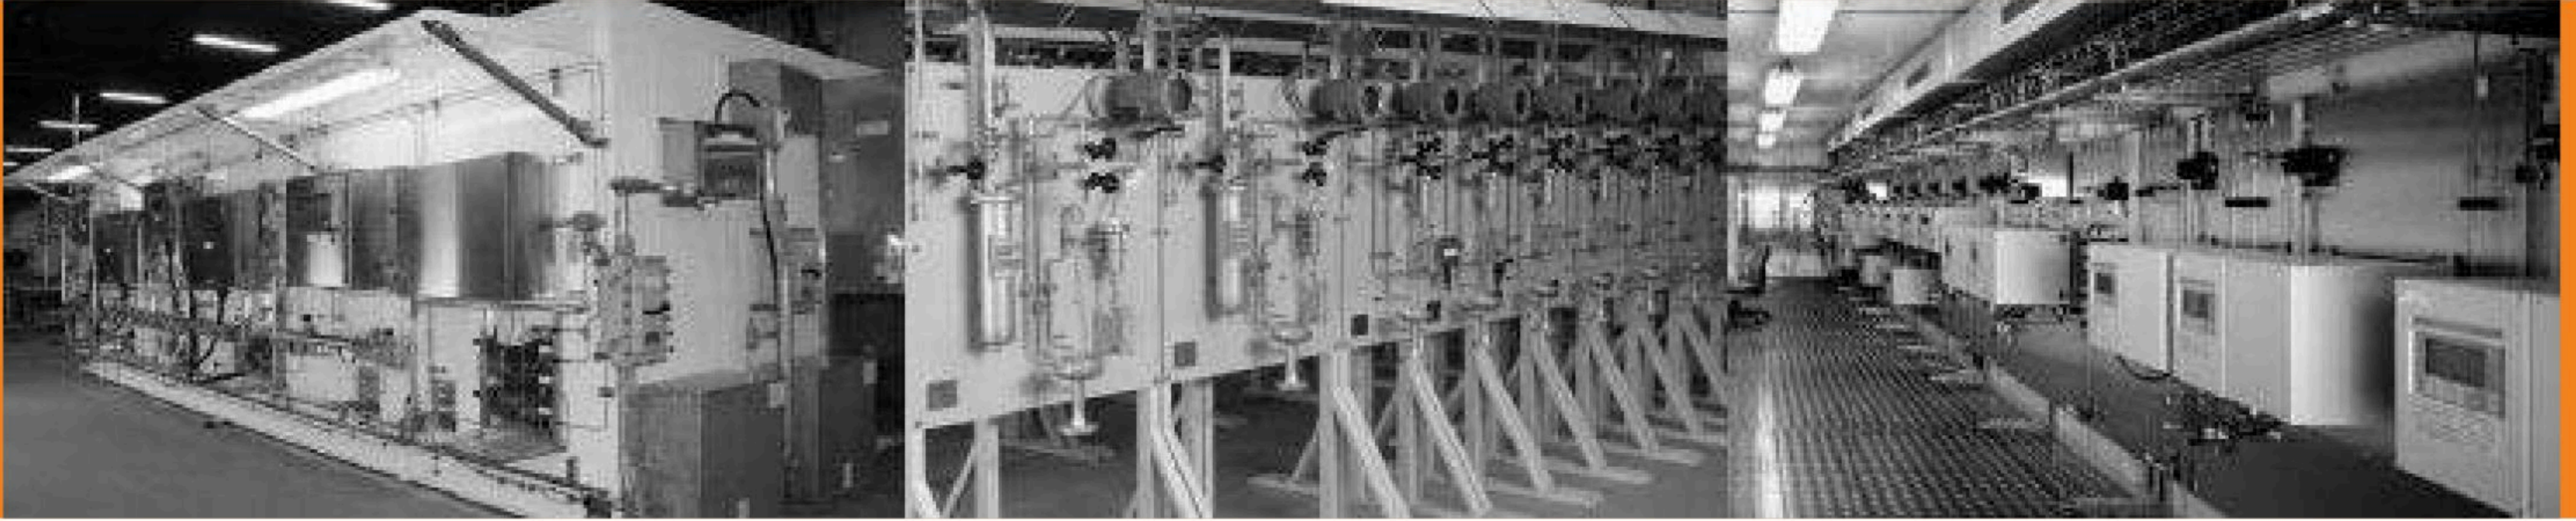

ISE staging area is approved for Assembly and Test for DCS System and CCS under Vendor Code No. 10057935 , Plant No. 30007611

9COM	Description
6000016361	CABINET: DCS SYSTEM (ASSEMBLY AND TEST)
6000016420	CABINET: FOR CCS (ASSEMBLY AND TEST)

Staging and cabinet integration area, can handle up to 190 cabinets (800mm x800mm), in addition to our 1500 Sqm Office Area

Integrated Analyzer Solution

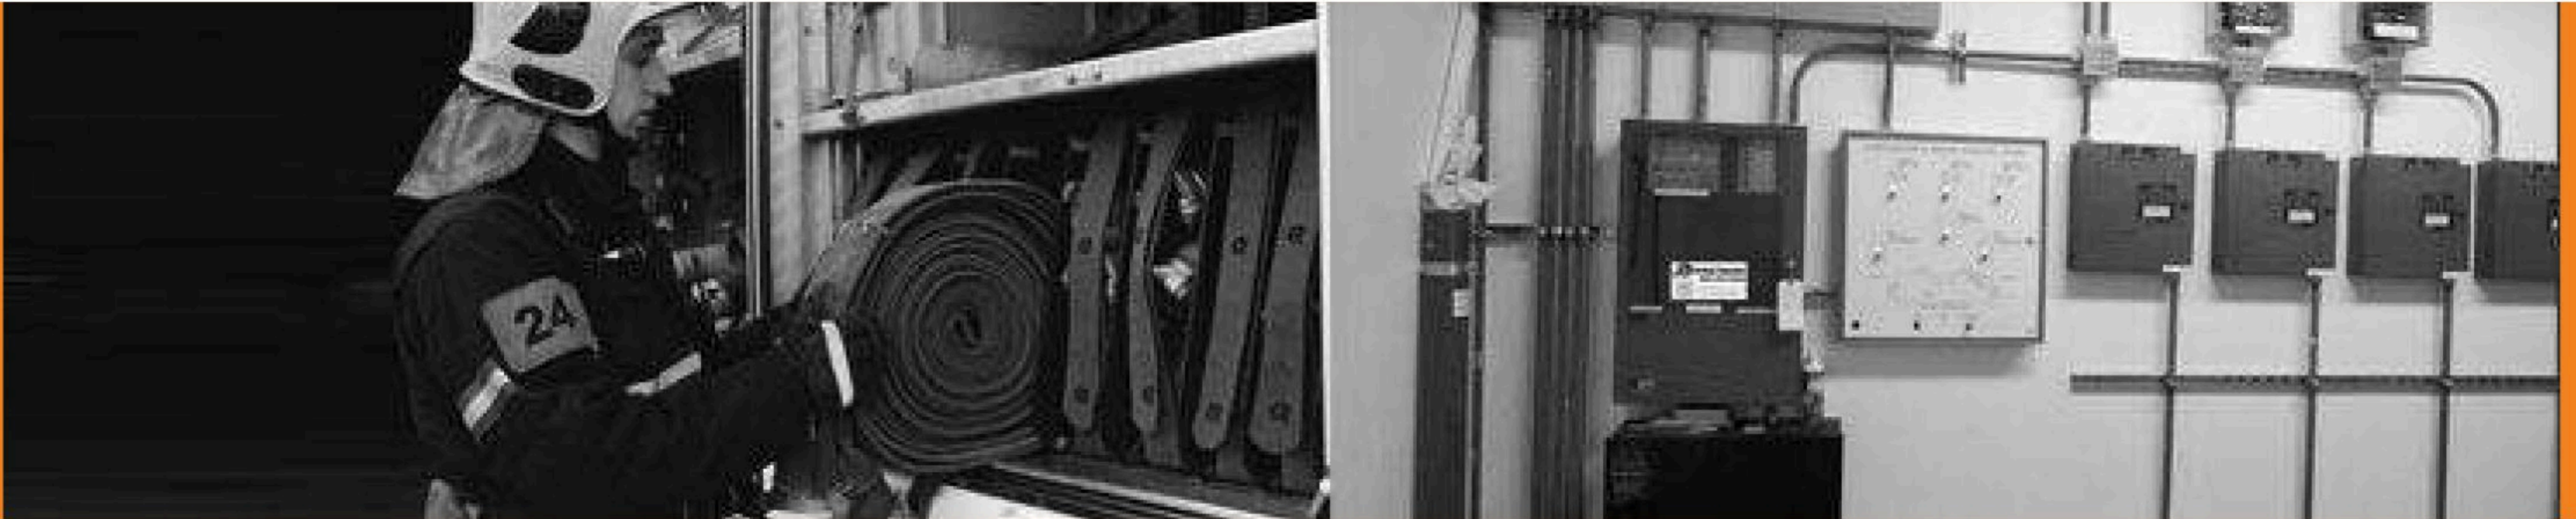

- ISE provides Complete Integrated Solutions, covering Process Plants Quality Measuring Analyzers (online Analyzers), and LAB Analyzers Solutions (Offline Analyzers).
- ISE do the complete engineering/design, supply of analyzers, FAT, SAT, installation, commissioning and handover.
- ISE can build solutions based on customer's requirement by collaborating with single or multiple OEMs under one umbrella minimizing cost and delivering quality services.
- ISE analyzers team is capable to deliver brown field projects on time as it has in-house engineering/design and testing capabilities.
- ISE specialized in integration, testing and commissioning of tailor-made Sampling Systems for various O&G, petrochemical and process industry.

Customer	No. of Analyzers	Type of System	End User
Sabic - Yanpet	76	Gas and Liquid	Yanpet
Sabic - Nutrients	10	pH and Conductivity	Safco
Sabic - Sabtank (Jubail)	3	CEMS	Sabantank (Jubail)
Sabic - Yanpet	8	Gas BTX and Liquid	Yanpet
Sabic - Petrokemya	103	Gas and Liquid	Petrokemya
Sabic - Ar Razi	5	Air Quality Monitoring	Ar razi
Sabic - Albayroni	12	Liquid Analyzers	Al-Bayroni

Integrated Fire Protection and Security System Solutions

Over the period, ISE has acquired capabilities and experience in providing integrated solution for fire protection and security system as per High Commission of Industrial Safety(HCIS) Security & Safety Directives 2017 for chemical, petrochemical, metal & mining and oil & gas sector. ISE do the complete engineering/design of fire protection and security system. ISE provides complete in-house LSTK solution from procurement to installation to final handover to facility operator.

ISE Specialties are

- Fire protection philosophy and design criteria
- Design of fire safety systems (concept, FEED and DED)
- Installation, Inspection, Risk assessment and certification
- FAT, iFAT and commissioning
- Training facility operators

Our Channel Partners

Honeywell

ABB

invictux

CCC – Compressor Controls Corporation

- Expertise in Turbomachinery optimization
- Leading supplier - TMC solutions.
- Solutions for:

1. Anti surge protection
2. Speed and overspeed detection
3. Performance monitoring
4. Turbines and compressors
5. Variable speed coupling
6. Gas Turbine Fuel
7. Hot Gas Expanders
8. Centrifugal Compressors
9. Cryogenic Expanders

ABB Energy Industries

ABB products.

1. Control systems
2. Control Room Solutions
3. Manufacturing Operations Management Software
4. Measurement Products
5. PLC
6. Industrial Analytics and AI
7. Cyber Security Solutions
8. Cloud Managed edge platform
9. Collaborative Operations
10. Digital transformation toolbox
11. Sustainability solutions

ABB Provides automation related solutions for following industry

1. Oil and gas
2. Chemical and refining
3. Power Generation
4. Water treatment and wastewater management
5. Life Sciences
6. Hydrogen production and distribution
7. Substrates and personnel protection

Honeywell RTG (Radar Tank Gauging)

Honeywell

TERMINALS AND STORAGE SOLUTIONS

ENABLING CUSTOMERS TO STORE MORE AND MOVE FASTER

- Full range of terminal products measuring liquid
- Industry leading accuracy and reliability
- Vendor neutral with modular installation
- Lowest total cost of ownership, highest return on investment

Portfolio

- High accuracy radar and servo level
- Temperature profile
- Tank inventory systems
- Calibration provers
- Loading and unloading solutions
- Blending and additive injection
- Safety and security
- Terminal operations management
- MIS and TAS software solutions

Honeywell - SCAME Sistemi, s.r.l.

About Honeywell SCAME

Honeywell

Honeywell's Fire and Gas (F&G) Controller manages detection, notification and extinguishing functions.

It can integrate with process safety systems and peripherals through multiple protocols.

This all-in-one solution is meant for both process areas and personnel stations.

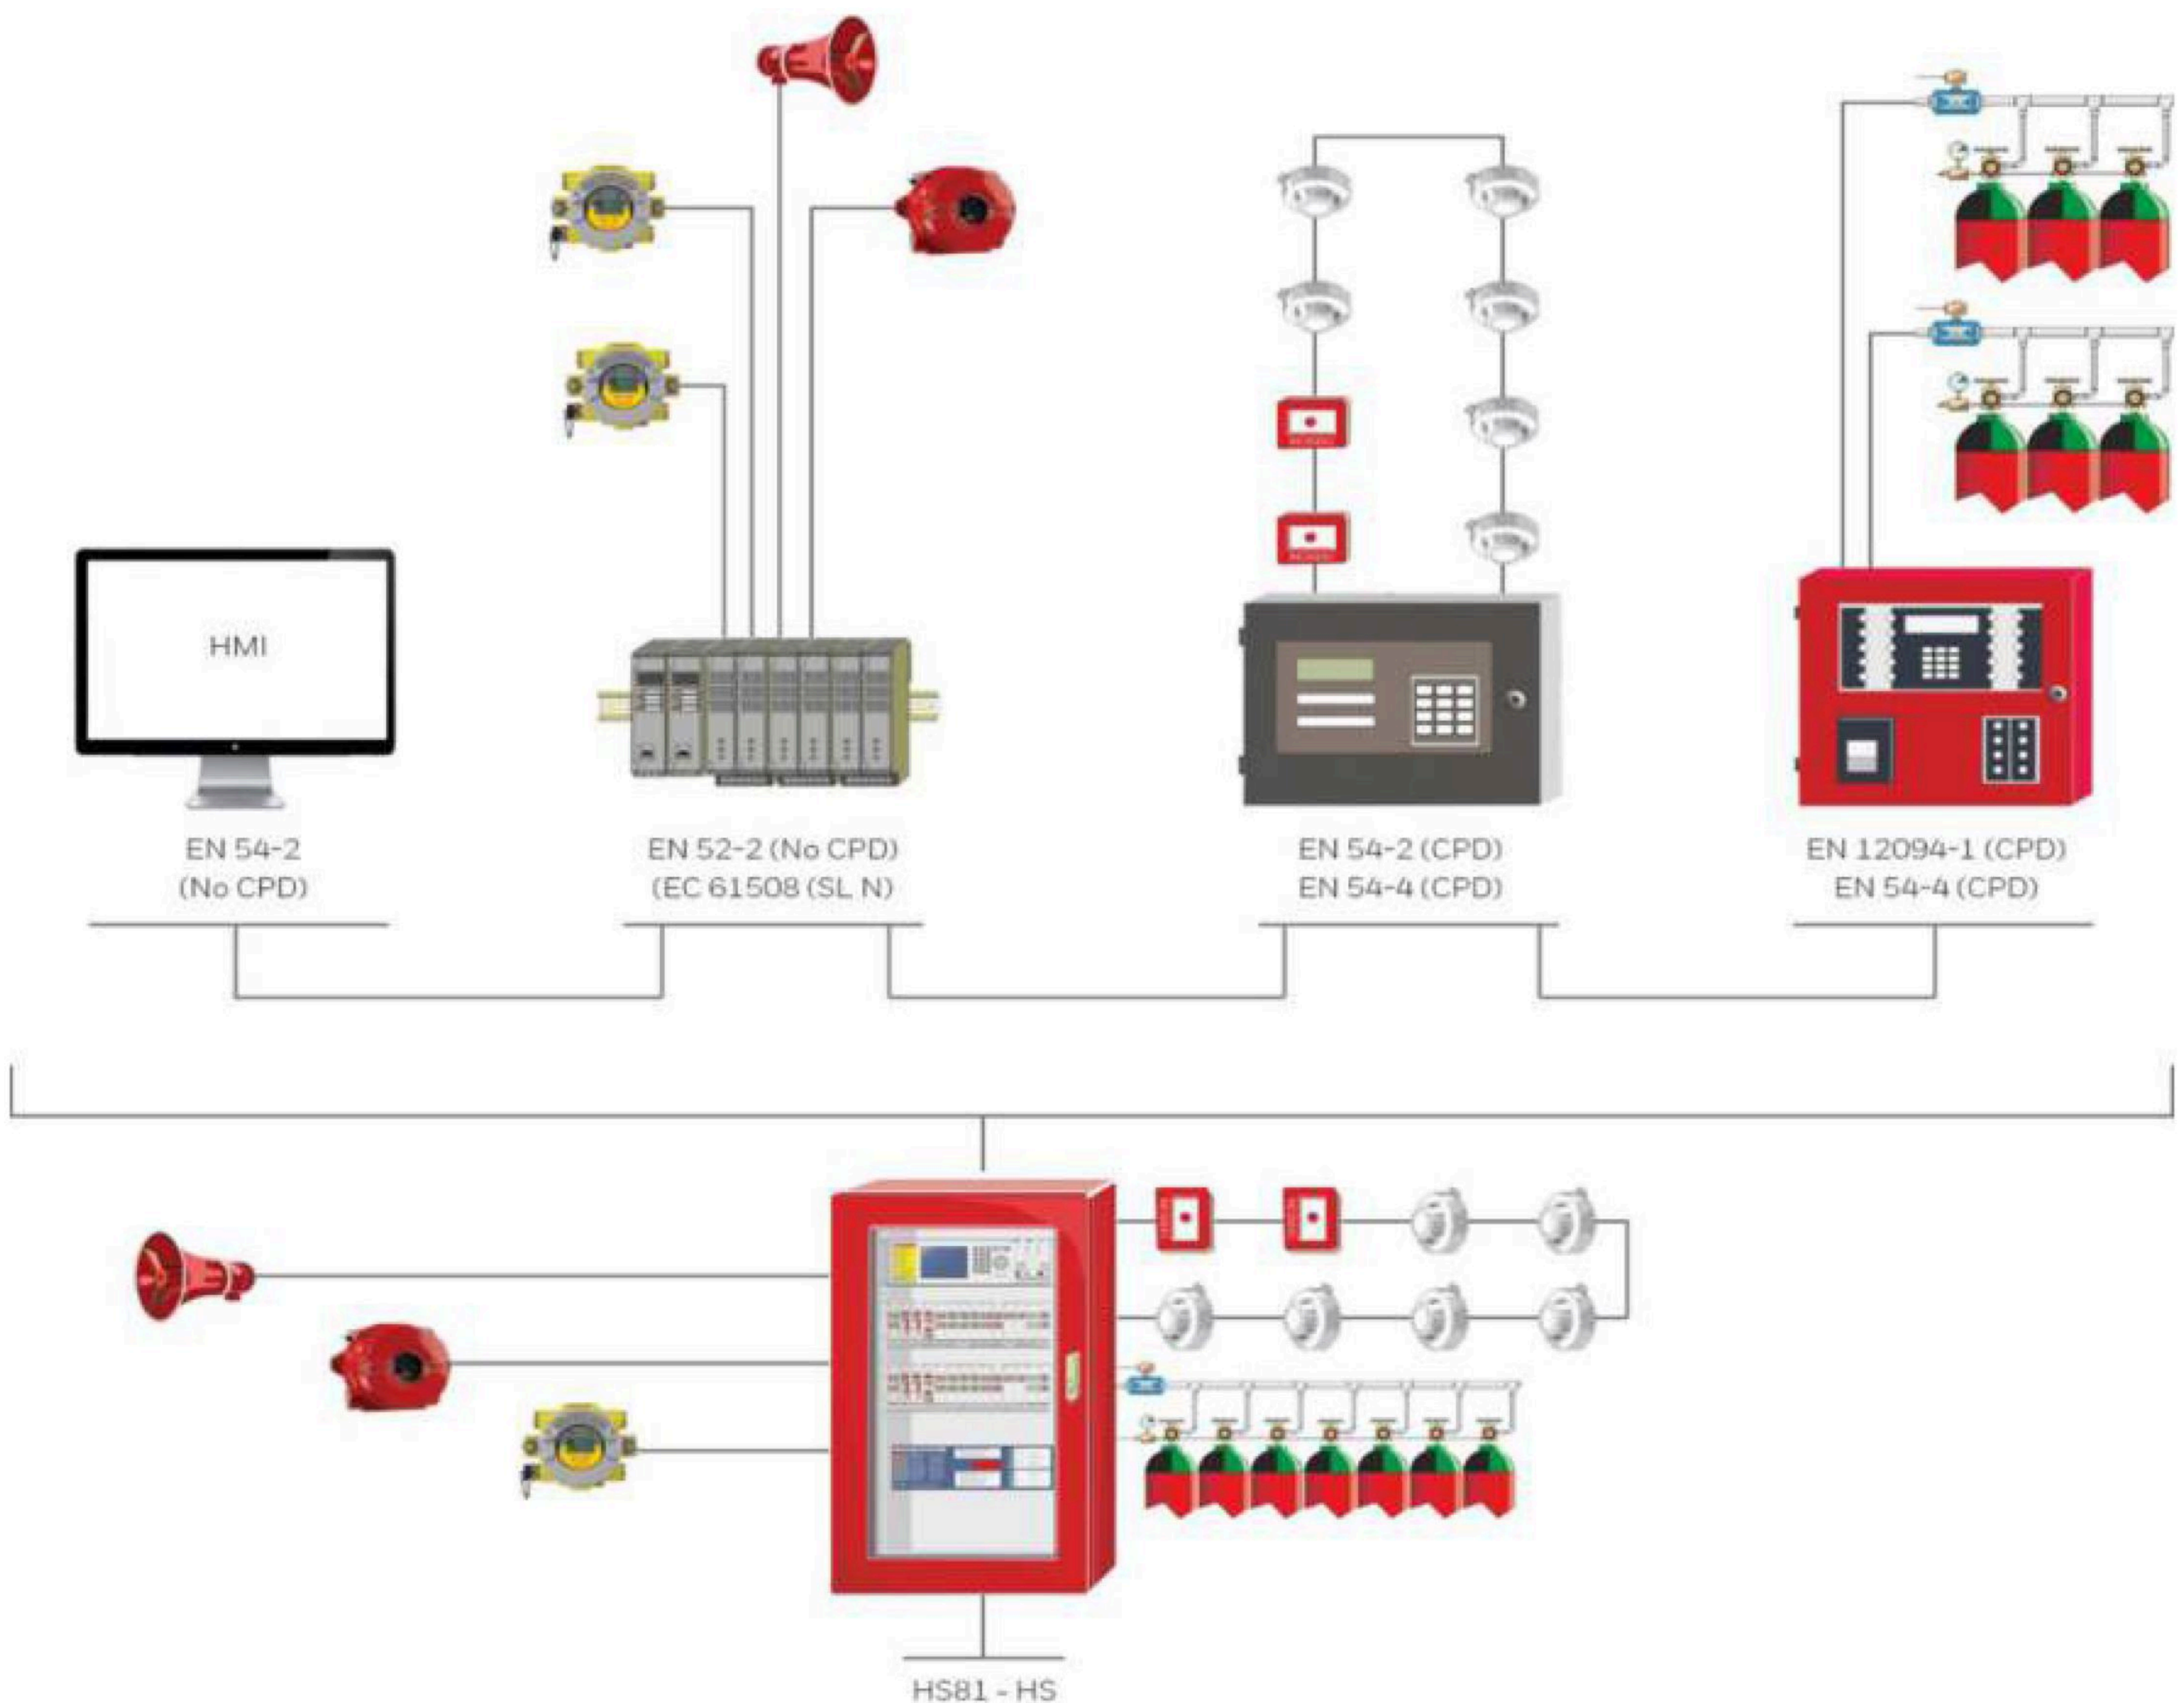

It can perform flame, smoke and gas detection, and manage extinguishing/agent release.

This new F&G controller carries essential SIL2 and SIL3 ratings in addition to meeting NFPA-72 and EN-54 requirements.

It features a unique 'hot swap' capability for the replacement and auto-configuration of CPUs and power supplies without the need to perform a critical system shutdown.

Honeywell - SCAME Sistemi, s.r.l.

- Hot backup redundant Central Processing Units (CPUs) eliminate downtime
- Hot-swappable redundant CPUs and power supplies
- Hot-swappable cards with automatic reconfiguration
- Redundant and looped panel communication bus
- Automatic testing of card inputs and outputs
- Self-diagnostics and fault signaling of cards and CPU
- Automatic safe disabling of malfunctioning cards
- Supports redundant cards for fire and gas applications
- Multiple protocol addressable detection systems

EN 54 - 2 C (COD), EN 54-4 (CPD), 12094-1 (CPD), IEC 61508 (SIL N)

Our Customers

ISE is an ISO Certified Company

9001:2015
45001:2018
14001:2015

Certificate SA17/2569

The management system of
International Systems Company for General Contracting - (ISE)
Light Industrial Area, P.O Box 30943, Jubail 31951, Kingdom of Saudi Arabia

has been assessed and certified as meeting the requirements of
ISO 9001:2015

For the following activities
Turnkey Provider of Process Control System, Turbo Machinery and VMS Control Systems, Fire & Gas Detection Systems for Oil & Gas, Petrochemical and all Other Industries.

This certificate is valid from 06 July 2023 until 06 July 2026 and remains valid subject to satisfactory surveillance audits.
Issue 4. Certified since 29 October 2017
